**QUESTIONS & ANSWERS:**

- Q:** Please confirm whether or not the Qualification of Bidder form is required to be submitted with the bid documents on bid day. If not required on bid day, will it potentially be requested at a later time?
- A:** Only items in the bid pack handed out at the pre-bid meeting are to be submitted in the bid envelope. The Form of Statement of Bidder's Construction Experience may be requested of the low bidder if we are unfamiliar with their work.
- Q:** Regarding Subcontractor listed on bid envelope: In Section 3 of the Instructions to Bidders, roofing is listed as a required subcontractor whose state contractor license number, expiration date, and applicable classifications must be provided. However, the bid envelope distributed at the pre-bid conference does not include a space for this information. Please confirm whether the roofer must still be listed on the bid envelope.
- A:** No Roofing is not required on the Bid Envelope. See Item 02 above.
- Q:** Is there a possibility that we can arrange for some subcontractors to meet and look inside the existing building for the EMS project?
- A:** Yes, See Item 01 above.
- Q:** Please see the attached edge detail from the structural drawings. You can't bend a plate with a center leg as shown. You could stitch-weld a continuous horizontal plate to the vertical edge plate but this is a substantial cost from a labor standpoint. Please advise on design intent.
- A:** The intent is it would be a two-piece plate assembly welded.

**PAGE 4**

- Q:** Sheet E2.0 indicates a 20-amp 3-phase circuit for this unit, from Panel "B" (25,27,29), however, the information on M1.1 indicates unit MCA/MOCP as 66.0 / 90 amps. Please verify the actual electrical requirements for this unit.
- A:** Several Electrical Sheets were changed to clarify this question. Refer to Items 15 – 18 above.
- Q:** Sheet A6.1 Detail K10 – need a source for the heat weld shower berm.
- A:** The shower berm is an Altro accessory to the Altro Aquarius flooring specified.
