

Door schedule packet

Rockford - sheet A2.2

65 doors read and traced to their source rows.

This public sample was assembled from the verified door-list export and its uploaded sheet. It illustrates the schedule portion of a packet; it is not an approved hardware submittal.

To include the hardware sets and their cut sheets, upload Section 08 71 00 as well. No hardware items have been inferred from the set references on this door schedule.

Source: the Rockford A2.2 reading recorded on 2026-10-09. The original sheet is included as the final page.

Contents and review notes

Cover	1
Contents and review notes	2
Door schedule - 65 rows	3-4
Source sheet - Rockford A2.2	5

Source references use the export's page and row fields unchanged. Row numbers start at 0. Page 1 is the uploaded A2.2 sheet, reproduced on packet page 5.

These tables show mark, set reference, size, rating, type and material. Consult the source sheet for door-pair, glazing, alternate-pricing and other notes; those columns were not preserved in the export. A dash means the exported field was blank.

Door schedule

Read from A2.2. Hardware set references only; Section 08 71 00 is required for the items.

SCALE: 1/4" = 1'-0"

Figure 1: Elevation view of a 6' x 8' wall section. The wall has a total height of 8'-0" and a total width of 7'-10". It features six vertical panels, each 7'-6" high and 1'-6 1/2" wide. The panels are separated by 3" gaps. The wall is supported by a foundation with a 7'-6" base and a 4" offset. The wall is labeled "G2" and "FOLD LINE".
